

LE LASTRE T-EDGE

Forme squadrate e decise per lavabi da appoggio e sospesi caratterizzati da bordi di soli 6 mm (tecnologia GLOBOTHIN®). Sono il frutto di un'armonia di linee apparentemente semplice ma ricca di dettagli da scoprire: come il gioco di curve gentili all'interno delle vasche, che nasce da esigenze funzionali ma che dà vita a un'inattesa interazione tra luce e geometrie. Lavabi doppi, con o senza superfici di appoggio o rubinetti integrati, mostrano l'efficienza tecnologica al servizio delle scelte di gusto.

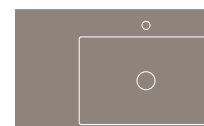

LE LASTRE T-EDGE

Squared and strong shapes for sit-on and wall-hung basins characterised by only 6 mm thick edges (GLOBOTHIN® technology). They are the result of an apparently simple harmony of lines but richly detailed to be discovered: like the play of gentle curves inside the basin, which arises from functional needs but giving life to an unexpected interaction between light and geometry. Double washbasins, with or without support surfaces or built-in taps, show technological efficiency at the service of tasteful choices.
